FOR IMMEDIATE RELEASE

THE BUCK DOESN'T STOP HERE

Lloydminster, AB (March 23, 2007) – KUDU Industries announced on March 15, 2007 its \$150,000 donation to Lloydminster's Lakeland College *Our Students, Our Community, Our Business* campaign. The funds will be used to expand the college's facilities by adding a new Bill Kondro Wing.

"At KUDU we believe in the education of our people and the value of our communities. It is a great honour to be a part of Lakeland College's future and we look forward to our continued involvement in Lloydminster's growth", said Ray Mills, Chief Executive Officer and cofounder of KUDU.

KUDU's pledge brings the campaign total to \$1.55 million and the college is well on its way to reach its \$2 million target. As a Green & Gold sponsor, KUDU's name will be present in the new lecture theatre of the Bill Kondro Wing.

"Lakeland College is grateful to KUDU Industries for their generosity. In addition to this significant financial contribution, the company will also provide guest lecturers so Lakeland students can benefit from KUDU's expertise," said Glenn Charlesworth, President and Chief Executive Officer of Lakeland College. "I admire KUDU's commitment to education".

Construction of the Bill Kondro Wing began in October 2006 and is expected to be built by the end of this year. Upon completion of the wing, Lakeland College will be able to increase enrollment in high demand programs including heavy oil operations.

KUDU specializes in Progressing Cavity Pumps and has 11 field stores in Canada, including one in Lloydminster. Since 1989, this Canadian company has been dedicated to quality, performance and technical excellence. For additional information about KUDU's community involvement, products or services call 403 279 5838 or visit www.kudupump.com.
